

Media and Image consent

What it means to consent to having your image or video taken

When you agree to have your photo or a film taken on the Green Careers project, it means you're giving us permission to use images or clips from project activities. These photos may be shared on our social media pages, our website, with our funders, and with the organisations or businesses where the opportunities take place. This could include platforms like Facebook, Instagram or LinkedIn, where we highlight the experiences and opportunities young people are taking part in.

Once an image is shared on a public platform, it can be reshared by others, for example, by funders, partner organisations, or the business you visited. In some cases, images shared publicly can even be picked up by local media.

We want to make sure you fully understand what you agree to before any photos are taken. There is no right or wrong answer, it's completely your choice, and you should only say yes if you feel comfortable.

If you would like to discuss anything in more detail or have a concern please contact greencareerspathway@codigroup.co.uk
